

GREEN SAFETY

**GO GREEN WITH
HTS MCT SEALING SYSTEMS**

GREEN SAFETY FOR A FASTER INSTALLATION

When using HTS products, the installation process is very simple: **select a specific Tolerant block and install it immediately onto the respective cable.** The speed of installation dramatically reduces labour costs when compared to alternative products.

No waste material

Due to our Tolerant Blocks **not needing to be modified** onsite, there is therefore no scrap material to dispose of. This means that potential hazards and hidden costs associated with the disposal of waste products are removed.

Tolerant block size range

Each block is manufactured incorporating five sealing faces and four sealing grooves along the internal faces, which are displaced by the sealing process. This results in a tolerance of up to **4mm for cable/pipe diameters** in the same block, without the need of any onsite modifications. The five sealing faces allows for correct sealing of cables/pipes with an inconsistent outer diameter or shape.

Also, HTS colour-coding system removes the doubt by confirming that two correct halves are selected and installed on each cable.

No onsite modifications needed

Modification of any product is a process that can lead to human error. When using blocks that have to be modified, the installation contractor must make the correct decision each time he or she modifies a block. Indeed, on a large project where thousands of blocks have to be modified, the chance that they would all be modified correctly is unlikely. **Errors in modification to any sealing block will result in the installation's integrity** against; gas, water and fire protection being completely lost.

ENVIRONMENT FRIENDLY

HTS Global reach with reliable local support for MCT's

We help industries worldwide maintain safety, efficiency, and compliance—because protecting critical infrastructure can't wait. Our global network of offices and distributors ensures that no matter where your project is, you have full support.

Find your nearest contact at WWW.HTS-MCT.COM and get the right solution exactly when you need it.
